## **Comments**

Tattingstone Parish Council have reviewed this application and would like to note that it fully supports the response made by Bentley Parish Council objecting to this proposal.

In addition the Council would like to highlight concerns about the negative impact that would be caused by this level of construction traffic in the building stage and ongoing service vehicles once established. This would place the A137 and the smaller roads around Bentley and Tattingstone under increased pressure.

The Council also noted concerns about the proposed use of chain link fencing in the proposals which can have a negative impact on local wildlife who risk getting caught and injured in this type of fencing.
