MEDICAL EXAMINATION REPORT

In completing this medical examination report, Medical Practitioners are asked to have regard to either recommendations of the Medical Commission for Accident Prevention in their booklet 'Medical Aspects of Fitness to Drive' (particularly those that apply to Group II drivers), or to the Notes for the Guidance of Doctors conducting those examinations prepared by the British Medical Association.

Please read all notes and guidance notes carefully when completing this form, incomplete forms will not be accepted.

Part 1 – To be completed by Applicant

To be completed by Medical Practitioner:

Part 2 - Fitness to Drive

Part 3 – Medical examination report for a Group 2 licence D4 (Information and useful notes)

Part 4 - D4 Medical Examination Report

The Medical Certificate is the method by which the Licensing Authority is advised that the applicant is medically fit to drive hackney carriage and private hire vehicles. Applicants must be examined and certified as being medically fit by their own General Practitioner or another General Practitioner in the practice with which they are registered and must take into account previous medical history. Another registered Medical Practitioner may complete the form but they must have had access to the applicant's medical records or the Medical Certificate will not be accepted. The Council may require a further examination or referrals following receipt of this initial certification.

This Medical Certificate is not one which must be issued free of charge as part of the National Health Service. The Council accepts no liability to pay for it.

Any fee charged is payable directly by the applicant to the Medical Practitioner, unless any other arrangements have been made for the payment of the fee. The applicant is to pay for the first and any subsequent medicals or referral examinations.

This certificate is for the confidential use of the Licensing Authority and other relevant public bodies.

PLEASE NOTE THAT THE LICENSING AUTHORITY REQUIRES ALL APPLICANTS TO MEET THE GROUP 2 STANDARDS. These standards apply to drivers of passenger carrying vehicles and are considerably higher than those of private car drivers. It is suggested that applicants that are unsure about their ability to meet the medical or eyesight standards consult their doctor/optician before they arrange for the medical form to be completed. Your doctor will normally charge you for completing the medical form. In the event of your application being refused, the fee you pay to the doctor is NOT refundable. The Local Authority has NO responsibility for the fee payable to the doctor.

A Medical Certificate is required for:

- All first applications for a hackney carriage / private vehicle hire drivers' licence.
- Those applying to renew their hackney carriage / private vehicle hire drivers' licence every three years until the age of 65.
- Those applying to renew their hackney carriage / private vehicle hire drivers' licence from the age of 65 years will be required to complete a medical certificate annually.
- Those that require further examination or referrals as required

Failure to complete the medical certificate correctly, stamped with the surgery's official stamp and signed by the doctor carrying out the medical, will delay a decision being taken on whether the applicant is issued with a hackney carriage / private vehicle hire drivers' licence.

PART 1 TO BE COMPLETED BY THE APPLICANT

APPLICANT DETAILS AND CONSENT

<u>Applicants</u> are required to complete this section – TO BE FILLED-IN IN THE PRESENCE OF THE MEDICAL EXAMINER CARRYING OUT THE EXAMINATION

The applicant must complete this page Applicant's declaration

You must fill in this section and must not alter it in any way.

Please read the following important information carefully then sign to confirm the statements below.

Important information about fitness to drive

As part of the investigation into your fitness to drive, we (DVLA) may require you to have a medical examination or some form of practical assessment. If we do, the people involved will need your medical details to carry out an appropriate assessment. These may include doctors, orthoptists at eye clinics or paramedical staff at a driving assessment centre. We will only release information relevant to the medical assessment of your fitness to drive. Also, where the circumstances of your case appear exceptional, the relevant medical information would need to be considered by one or more members of the Secretary of State's Honorary Medical Advisory Panels. Panel members must adhere strictly to the principle of confidentiality.

Declaration

I authorise my doctor and specialist to release reports and information about my condition which is relevant to my fitness to drive, to the Secretary of State's medical adviser.

I understand that the Secretary of State may disclose relevant medical information that is necessary to investigate my fitness to drive, to doctors, paramedical staff and panel members.

I declare that I have checked the details I have given on the enclosed questionnaire and that, to the best of my knowledge and belief, they are correct.

I understand that it is a criminal offence if I make a false declaration to obtain a driving licence and can lead to prosecution.
